**Subject:** RE: UDOGM / KUC Meeting on R&WMP Reconciliation & Form MR-REV

Glenn,

Thank you for your prompt response. We can meet 10:00 am June 25 at the Division offices.

The MR-REV form has been quite a challenge for KUC, and if you need explanation on how to complete it, when/how to use it, and its relationship to the plan, we can provide an explanation and simple overview. We look forward to a simple process for KUCC and the Division, and the form was to be an aid to that end. We will, once again, provide any necessary explanations about the form to eliminate confusion and provide clarity where needed.

Thanks again,  
Beth

Pursuant to your proposed times, KUC proposes to meet:

- o Wednesday June 25, 2008
- o 10am - Noon
- o UDOGM Offices
- o Attending for KUC will be Glenn Eurick and Cassady Kristensen, and Kris Goss (if available - she is on vacation this week)

Also, as a note of clarification, KUC does not wish to discuss revisions to the Form MR-REV but rather a discussion at some point in time on reaching a mutual understanding on the utilization of the form, its content, and relationship to the Plan document itself when it is required to be submitted.

Glenn

Subject: Re: UDOGM / KUC Meeting on R&WMP Reconciliation & Form MR-REV

Glenn,

Thank you for your email. As part of KUCC's commitments with the Division regarding addressing the plan mechanics to ensure an organized and complete plan is crucial. We look forward to working with KUC to assist in developing an understanding of submitting and approving documents to meet this end.

The commitments are to work on the plan mechanics; the structure, submittal procedure, and filing.

The first meeting will consist of the following:

1. General information about the structure of plans and what a typical plan looks like
2. Organization of the plan

Our minerals processing staff will attend this kick off meeting, and plan on them having an integral role and ongoing participation in subsequent meetings. We encourage you to have your processing staff attend this meeting as well.

At this time, we do not want to focus our efforts on the form MR-REV changes within the context of the meeting. If you're anxious to have changes made to form MR-REV, I suggest you send specific comments to Susan and Penny Berry. Form changes are typically addressed internally, but as mentioned, we welcome your suggestions. The form is a component of the big picture and not the focus of this effort.

Availability is open for all of us with the exception of: June 24, and the morning of June 26.

Division attendees: Beth Ericksen and the following process staff: Penny Berry, Emily Berry, and Vickie Southwick.

notes taken by: Emily Berry for distribution

Please advise your availability and please allow about 2-2.5 hours.

Thanks again,

Beth

Beth, please advise if the initial meeting on this matter can be scheduled for the week of June 23, 2008. We will work with you to find a best-fit for a meeting day.

I anticipate a series of these meetings, particularly pertaining to the reconciliation of our respective R&WMP documents.

For the initial meeting, I would propose addressing the Form MR-REV utilization first then moving on to the Plan.

Glenn
